

Soumya Mukherjee

Product Leader | Digital Platforms | Fintech & Growth

+91-8978630885 | contactsoumyam@gmail.com

PROFESSIONAL SUMMARY

Product leader with 10+ years of experience across fintech, digital products, monetisation and technology, including leadership of multi-product portfolios and Product Manager teams. Experienced in building and scaling customer-facing platforms across rewards, payments, communications, personalisation and advertising, with a track record of driving adoption, revenue, retention and cost efficiency. MBA from ISB with an engineering background and experience spanning product, technology and technology risk.

WORK EXPERIENCE

Prefr (a CRED entity) | *Senior Product Manager* | Sep 2023 – Present

- Progressed from managing individual growth products to **leading the broader Growth Charter**, expanding responsibility across multiple platforms, product integrations and cross-functional teams, and assuming broader accountability for CAC optimisation, revenue growth and user retention.
- Own the evolution of multiple growth platforms from individual product capabilities into scalable, reusable platforms, identifying cross-portfolio opportunities and aligning Product, Engineering, Data Science and GTM teams around execution.
- Led teams to **launch a Referral program** leveraging Rewards, Communications and Landing Page capabilities in an orchestrated customer journey, creating a new GTM motion **and scaling the initiative to ₹1 Cr in quarterly disbursements** within 6 months.
- Built and scaled Prefr's Rewards platform for whitelisted and open-market users, achieving 62% take rate and 83% user end-state rate since launch. Drove successive product and user experiments that improved funnel conversion **by 20%**, generating incremental monthly revenue.
- Took ownership of Prefr's largest in-house Campaign Platform, **delivering 20M+ monthly multi-channel communications**, and expanded its capabilities through automated campaigns, dynamic communication fallbacks, push notification support, driving **>80% delivery rates**.
- Led teams to run landing-page A/B experiments over 3 quarters, achieving statistically significant results that drove a **2.5% top-of-funnel conversion lift** and **15 bps** improvement from top-of-funnel to disbursement.
- Reduced user onboarding costs by **65%** by building a deduplication API for pre-campaign optimisation, improving user-profile quality and enabling real-time audience filtering for Demand Partners.
- Launched 1:1 communications **first-step click attribution**, creating granular visibility into marketing funnel performance across the organisation.

JioSaavn | *Senior Product Manager* | Jul 2021 – Mar 2023

- Led Ad Tech product strategy and roadmap for an **80M MAU platform**, managing a team of 2 Product Managers and driving advertising monetisation.
- Built personalisation and analytics capabilities across the advertising platform, increasing engagement by **28.5%** and enabling more relevant, data-driven customer experiences.
- Led migration of PHP APIs to Python, reducing API failures by **20%** and improving platform reliability and scalability.

OZiva | *Product Manager* | Jun 2020 – Jun 2021

- Built **OZiva Prime**, a loyalty and rewards subscription product, improving user retention by **25%**.
- Modernised the **cashback and wallet platform**, improving UX and payout reliability and increasing repeat purchase rate from **22% to 40%**.
- Optimised payment gateway integrations, reducing payment costs by **70%** and churn by **50%**.

Jivox | *Senior Product Manager* | May 2018 – Apr 2019

- Led product improvements to Jivox IQ's ad platform, improving ad relevance and targeting by **25%** through third-party data and technology integrations.
- Strengthened **GDPR compliance** across the platform, mitigating **€10M in legal risk** while maintaining product functionality.
- Built Canvas Studio, enabling brands to create high-quality ads and reducing ad development time by **15%**.

Microsoft | *Associate Consultant* | Oct 2014 – Mar 2017

- Led functional testing for a **\$175M cloud-connected vehicle platform** deployed across North America and China, coordinating technology and business stakeholders across a complex enterprise environment.

Deloitte US India | *Technology Risk Consultant* | Jul 2013 – Oct 2014

- Delivered user-centric technology and identity/access-management solutions for **\$15M enterprise programs**, building foundational experience across technology risk, security and controls.
